

DAOSYS Launch

Smart DAO Protocol

Masternode Yield Farm
(Launch)

Sample DAO
(Conference)

DAOSYS Token

- Smart DAO protocol (what)
- Self-sovereignty via trustless automatic integration
- Fast deployment (canned templates)
- Possible via secure deployment process
- Hyper-diamond standard
- Collateralized VE (vesting) indexing token
- Automated audits of child DAOs
- Fully backed (eg. DAI, SYS)
- Non-speculative asset
- Potential emergent future behavior
